FDD Abstract of [REDACTED]

THE BRANDENBURG STEEL AND ROLLING MILL (6 pp; [REDACTED] undated)

25X1X

25X1A

This document consists of [REDACTED] a report on the People-Owned Brandenburg/Havel Steel and Rolling Mill. It contains information on the development of the steel and rolling mill, its location, the dates when construction of its furnaces was started and the dates of their completion or planned completion. Detailed construction plans for 1951 and 1952 are given, and also figures for planned and actual investments (1950 - 1952) in Eastmarks and the proportion of the West marks involved. Information is given on the number of employees as of 31 December 1950, the numbers of employees planned for 1951 and 1952, names of firms supplying construction materials to the plant, and names of its leading personnel. General remarks pointing out the construction work done and the materials needed to complete one of the furnaces are given, and also a description of the layout of installations. Further given are the planned production figures for open-hearth and rolled steel (1950 - 1955), capacity per furnace, some production details, information on the steel qualities produced, and some information on steel deliveries to be made (figures for monthly quotas to be delivered to Hettstedt, Kirchmoeser, Ilsenburg, and Hennigsdorf during the second quarter of 1951, in percentage of total production).

The information contained in this report is implied to be as of the beginning of 1951.
